

## SCCS Baseline Codebook Variable Distribution

Frequencies and mean values are presented for baseline variables among the entire SCCS cohort.

Please note the following:

- Percentages were calculated for categorical variables.
  - Percentages less than 0.5% are masked.
  - If a response is listed in the SCCS Baseline Codebook and is not listed in the variable distribution, then no participants gave that response at baseline.
- Mean values and standard deviations were calculated for continuous variables excluding the following responses, where applicable:
  - 6666 = Never
  - 7777 = Not applicable
  - 8888 = Refuse
  - 9999 = Don't know
  - Outliers
  - Missing values
